CONTENTS OF VOLUME 75, 1985

No. 1—January

1-4 **Acknowledgment of Reviewers**

5-7 **Author's Guide for Manuscript Preparation**

8-24 **Seventy-Sixth Annual Report of the American Phytopathological Society**

25-29 **Presidential Address: Biological Control of Plant Pathogens: Theory to Application** ..... R. James Cook

30-31 **The American Phytopathological Society Elected and Appointed Officers, Representatives, and Committees for 1984-1985**

32-38 **Awards and Honors Program—76th Annual Meeting**

OBITUARY

39 **Dewey Stewart, 1898-1984** ..... M. K. Roane and M. J. O'Brien

DISEASE CONTROL AND PEST MANAGEMENT

40-48 **Suppression of Fusarium Yellows of Celery with Potassium, Chloride, and Nitrate** ..... R. W. Schneider

74-79 **Negatively Correlated Cross-Resistance to Diphenylamine in Benomyl-Resistant *Penicillium expansum*** ..... D. A. Rosenberger and F. W. Meyer

DISEASE DETECTION AND LOSSES

48-52 **Serological Detection of Cherry Leafroll Virus in English Walnut Trees** ..... A. Rowhani, S. M. Mircetich, R. J. Shepherd, and J. D. Cucuzza

ETIOLOGY

79-83 **Purification and Infectivity of the Coconut Cadang-cadang Viroid** ..... N. A. Mohamed, R. Bautista, G. Buenaflor, and J. S. Imperial

109-115 **Biological, Serological, and Cytopathological Properties of Tomato Vein-Yellowing Virus, a Rhabdovirus Occurring in Tomato in Morocco** ..... M. El Maataoui, B. E. L. Lockhart, and D.-E. Lesemann

CYTOLOGY AND HISTOLOGY

84-89 **Two Types of Inclusions in Maize Infected with Maize Stripe Virus** ..... E. D. Ammar, R. E. Gingery, and L. R. Nault

ECOLOGY AND EPIDEMIOLOGY

53-57 **Roles of Matric and Osmotic Components of Water Potential and Their Interaction with Temperature in the Growth of *Fusarium oxysporum* in Synthetic Media and Soil** ..... K. H. Brownell and R. W. Schneider

58-60 **Delimitation of Lesions of Fusarium Hypocotyl Rot of Pine by Soil Microsite Environmental Determinants** ..... K. H. Brownell and R. W. Schneider

61-67 **Probability Models for Host Infection by Soilborne Fungi** ..... C. A. Gilligan

68-73 **Interactions of *Verticillium dahliae*, *Colletotrichum coccodes*, *Rhizoctonia solani*, and *Pratylenchus penetrans* in the Early Dying Syndrome of Russet Burbank Potatoes** ..... J. B. Kotcon, D. I. Rouse, and J. E. Mitchell

90-94 **Relationship Between Sclerotial Spatial Pattern and Density of *Sclerotinia minor* and the Incidence of Lettuce Drop** ..... H. R. Dillard and R. G. Grogan

94-97 **Effects of Cultural Conditions on Sporulation, Germination, and Pathogenicity of *Entomosporium maculatum*** ..... T. van der Zwet and H. F. Stroo

98-103 **Relation of Inoculum Size and Concentration to Infection of Wheat Roots by *Gaeumannomyces graminis* var. *tritici*** ..... H. T. Wilkinson, R. J. Cook, and J. R. Alldredge

115-118 **Population Dynamics of *Trichoderma viride* in Steamed Plant Growth Medium** ..... J. J. Marois and J. C. Locke

122-126 **Effects of Temperature on Sporulation, Conidial Germination, and Infection of Maize by *Peronosclerospora sorghi* from Different Geographical Areas** ..... M. R. Bonde, G. L. Peterson, and N. B. Duck

GENETICS

104-108 **The Use of Transposon Mutagenesis in the Isolation of Nutritional and Virulence Mutants in Two Pathovars of *Pseudomonas syringae*** ..... D. M. Anderson and D. Mills

119-121 **Genetics of Host-Parasite Interactions Between Alfalfa and *Peronospora trifoliorum*** ..... D. Z. Skinner and D. L. Stuteville

No. 2—February

PHYSIOLOGY AND BIOCHEMISTRY

138-141 **The Effect of Xylose on the Growth and Sporulation of an Isolate of *Bipolaris maydis* Race T and its Relation to pH and Ammonium Levels** ..... T. W. Bischoff and M. O. Garraway

235-239 **Further Studies on the Relationship between Glyceollin Accumulation and the Resistance of Soybean Leaves to *Pseudomonas syringae* pv. *glycinea*** ..... M. Long, P. Barton-Willis, B. J. Staskawicz, D. Dahlbeck, and N. T. Keen

DISEASE DETECTION AND LOSSES

142-145 **An Evaluation of "Heat Damage" and Fungi in Relation to Sunflower Seed Quality** ..... J. A. Robertson, R. G. Roberts, and G. W. Chapman, Jr.

RESISTANCE

199-201 **Resistance to Soybean Mosaic Virus in Soybeans** ..... S. M. Lim

201-205 **Resistance to Watermelon Mosaic Virus II Multiplication in *Cucumis melo*** ..... J. W. Moyer, G. G. Kennedy, and L. R. Romanow

212-216 **Virus Content as an Index of Symptomatic Resistance to Barley Yellow Dwarf Virus in Cereals** ..... M. Skaria, R. M. Lister, J. E. Foster, and G. Shaner

226-230 **Chemical Desiccation of Wheat Plants as a Simulator of Postanthesis Speckled Leaf Blotch Stress** ..... M. Zilberstein, A. Blum, and Z. Eyal

230-234 **Quantitative Comparison of the Resistance to Phytophthora Root Rot in Three Avocado Rootstocks** ..... M. K. Kellam and M. D. Coffey

DISEASE CONTROL AND PEST MANAGEMENT

135-137 **Biodegradation of Metalaxyl in Avocado Soils** ..... A. M. Bailey and M. D. Coffey

151-158 **Characteristics of dsRNA-Free and dsRNA-Containing Strains of *Endothia parasitica* in Relation to Hypovirulence** ..... J. E. Elliston

170-173 **Preliminary Evidence for Two Debilitating Cytoplasmic Agents in a Strain of *Endothia parasitica* from Western Michigan** ..... J. E. Elliston

POSTHARVEST PATHOLOGY AND MYCOTOXINS

174-179 **Development of Resistance Against *Geotrichum candidum* in Lemon Peel Injuries** ..... A. B. A. M. Baudoin and J. W. Eckert

TECHNIQUES

183-185 **Production and Storage of Inoculum of *Cercospora kikuchii* for Field Studies** ..... C. D. Boyette and H. L. Walker

195-198 **A Simple Purification Method for Citrus Tristeza Virus and Estimation of its Genome Size** ..... M. Bar-Joseph, D. J. Gumpf, J. A. Dodds, A. Rosner, and I. Ginzberg

ETIOLOGY

221-225 **Pathogenicity and Relative Virulence of Seven *Phytophthora* spp. on Mahaleb and Mazzard Cherry** ..... W. F. Wilcox and S. M. Mircetich

ECOLOGY AND EPIDEMIOLOGY

127-129 **Effects of Temperature and Relative Humidity on Sporangium Production of *Pseudoperonospora humuli* on Hop** ..... D. A. Johnson and C. B. Skotland

130-134 **Apple Powdery Mildew Disease Progress on Sections of Shoot Growth: An Analysis of Leaf Maturation and Fungicide Effects** ..... N. Lalancette, Jr. and K. D. Hickey

165-169 **Influence of Temperature and Wetness Duration on Infection of Immature Strawberry Fruit by *Phytophthora cactorum*** ..... G. G. Grove, L. V. Madden, M. A. Ellis, and A. F. Schmitthenner

180-182 **Moisture Effects on the Discharge and Survival of Conidia of *Septoria tritici*** ..... F. J. Gough and T. S. Lee

190-194 **Influence of Temperature, Leaf Wetness Period, Leaf Age, and Spore Concentration on Infection of Pecan Leaves by Conidia of *Cladosporium caryigenum*** ..... T. R. Gottwald

206-208 **Survival of *Verticillium albo-atrum* from Alfalfa in Feces of Leaf-Chewing Insects** ..... H. C. Huang and A. M. Harper

209-211 **Effect of Root Feeding by Striped Cucumber Beetle Larvae on the Incidence and Severity of Fusarium Wilt of Muskmelon** ..... R. X. Latin and G. L. Reed

217-221 **Effect of Water Potential on Survival of Sclerotia of *Sclerotinia minor* in Two California Soils** ..... G. S. Abawi, R. G. Grogan, and J. M. Duniway

243-246 **Influence of Matric and Osmotic Water Potentials and Soil pH on the Activity of Giant Vampyrellid Amoebae** ..... Y. Homma and R. J. Cook

247-252 **Relation of Within-Field Spatial Variation of Plant-Parasitic Nematode Population Densities and Edaphic Factors** ..... J. P. Noe and K. R. Barker

SPECIAL TOPICS

240-243 **Optimizing Plot Size for Field Studies of Phymatotrichum Root Rot of Cotton** ..... T. J. Gerik, C. M. Rush, and M. J. Jeger

CYTOLOGY AND HISTOLOGY

145-150 **Structural Comparison of Xylem Occlusions in the Trunks of Citrus Trees with Blight and Other Decline Diseases** ..... R. H. Brlansky, R. F. Lee, and M. H. Collins

159-164 **Accumulation of Phytoferritin and Starch Granules in Developing Nodules of Soybean Roots Infected with *Heterodera glycines*** ..... M. P. Ko, P.-Y. Huang, J.-S. Huang, and K. R. Barker

185-189 **Histopathology of *Cercospora sojina* in Soybean Seeds** ..... T. Singh and J. B. Sinclair

No. 3—March

OBITUARY

253 **Leo Joseph Klotz, 1895-1984** ..... G. A. Zentmyer, E. C. Calavan, L. C. Cochran, A. M. Boyce, and H. D. Chapman

TECHNIQUES

254-259 **A Seedling Bioassay Chamber for Determining Bacterial Colonization and Antagonism on Plant Roots** ..... P. S. Randhawa and N. W. Schaad

260-263 **A Semiselective Agar Medium for Isolating *Xanthomonas campestris* pv. *translucens* from Wheat Seeds** ..... N. W. Schaad and R. L. Forster

329-332 **Effect of Fluorescent-Labeled Lectins on Visualization of Decay Fungi in Wood Sections** ..... J. J. Morrell, D. G. Gibson, and R. L. Krahmer

VECTOR RELATIONS

292-297 **Transcellular Transport of Barley Yellow Dwarf Virus Into the Hemocoel of the Aphid Vector, *Rhopalosiphum padi*** ..... F. E. Gildow

RESISTANCE

274-280 **Effects of Temperature and Illuminance on Resistance of Inbred Lines of Corn to Isolates of *Bipolaris maydis*** ..... A. E. Jenns and K. J. Leonard

281-286 **Effect of Illuminance on the Resistance of Inbred Lines of Corn to Isolates of *Colletotrichum graminicola*** ..... A. E. Jenns and K. J. Leonard

314-317 **Transfer of Field Resistance to *Puccinia coronata* from *Avena sterilis* to Cultivated Oats by Backcrossing** ..... M. D. Simons

351-355 **Nature of Resistance in Soybean to Cowpea Mottle Virus** ..... M. Bijaisoradat and C. W. Kuhn

371-374 **Variation in Virulence in Successive Single-Zoospore Propagations of *Phytophthora megasperma* f. sp. *glycinea*** ..... F. S. Rutherford, E. W. B. Ward, and R. I. Buzzell

PHYSIOLOGY AND BIOCHEMISTRY

325-329 **Apple Tip Leaf Antigens That Cause Spurious Reactions With Tomato Ringspot Virus Antisera in Enzyme-Linked Immunosorbent Assay** ..... G. I. Mink, W. E. Howell, and P. R. Fridlund

366-370 **Effect of Light on the Behavior of *Alternaria tagetica* *In Vitro and In Vivo*** ..... P. J. Cotty and I. J. Misaghi

ETIOLOGY

287-291 **Tomato Yellow Top Virus: Host Range, Symptomatology, Transmission, and Variability** ..... S. Hassan, P. E. Thomas, and G. I. Mink

355-360 **Role of the Mycoplasmal Disease, Ash Yellows, in Decline of White Ash in New York State** ..... J. A. Matteoni and W. A. Sinclair

361-365 **Effects of Low-Molecular-Weight RNA and Temperature on Tomato Bushy Stunt Virus Symptom Expression** ..... B. I. Hillman, T. J. Morris, and D. E. Schlegel

ECOLOGY AND EPIDEMIOLOGY

270-274 **Effect of Soil Salinity on the Formation of Sporangia and Zoospores by Three Isolates of *Phytophthora*** ..... N. S. Blaker and J. D. MacDonald

305-309 **Phenotypic Response of Six Soybean Cultivars To Bean Pod Mottle Virus Infection** ..... M. T. Windham and J. P. Ross

310-313 **Transmission of Bean Pod Mottle Virus in Soybeans and Effects of Irregular Distribution of Infected Plants on Plant Yield** ..... M. T. Windham and J. P. Ross

318-321 **Effects of Leaf Maturity and Cultivar Resistance on Development of the Powdery Mildew Fungus on Grapevines** ..... M. A. Doster and W. C. Schnathorst

333-337 **Effects of Temperature on Pythium Root Rot of Spinach Grown Under Hydroponic Conditions** ..... S. E. Gold and M. E. Stanghellini

337-341 **Subterranean Clover Red Leaf Virus Disease: Effects of Temperature on Plant Symptoms, Growth, and Virus Content** ..... K. Helms, P. M. Waterhouse, and W. J. Müller

375-378 **Survival of *Phytophthora infestans* in Seeds Extracted from Infected Tomato Fruits** ..... V. G. Vartanian and R. M. Endo

GENETICS

322-324 **Inheritance of Compatibility and Sex in *Gibberella baccata*** ..... E. B. Lawrence, P. E. Nelson, and T. A. Toussoun

CYTOLOGY AND HISTOLOGY

264-269 **Scanning Electron Microscopy of Pierce's Disease Bacterium in Petiolar Xylem of Grape Leaves** ..... G. E. Tyson, B. J. Stojanovic, R. F. Kuklinski, T. J. DiVittorio, and M. L. Sullivan

297-304 **The Histopathology of Alfalfa Roots Infected by *Hoplolaimus galeatus*** ..... O.-C. Ng and T. A. Chen

342-347 **Histology of Delicious/Malling Merton 106 Trees Affected by Apple Union Necrosis and Decline** ..... M. A. Tuttle and A. R. Gotlieb

347-351 **Graft Union Histology and Distribution of Tomato Ringspot Virus in Infected McIntosh/Malling Merton 106 Apple Trees** ..... M. A. Tuttle and A. R. Gotlieb

378 **Erratum**

No. 4—April

OBITUARY

379 **George Herman Starr, 1898-1982** ..... G. H. Bridgmon

LETTER TO THE EDITOR

380 **Comparison of the Designs of Two Volumetric Spore Traps** ..... G. M. Wili

RESISTANCE

390-394 **Variability and Interaction Between Alfalfa Cultivars and Isolates of *Phytophthora megasperma*** ..... M. A. Faris

463-466 **Evaluation of Four Upland Cotton Genotypes for a Rate-Limiting Resistance to Phymatotrichum Root Rot** ..... R. G. Percy and C. M. Rush

478-481 **Race-Nonspecific Resistance in Bean Cultivars to Races of *Uromyces appendiculatus* var. *appendiculatus* and its Correlation with Leaf Epidermal Characteristics** ..... M. Shaik

PHYSIOLOGY AND BIOCHEMISTRY

386-390 **Isolation, Purification, and Biological Activity of a Self-Inhibitor from Conidia of *Colletotrichum gloeosporioides*** ..... A. R. Lax, G. E. Templeton, and W. L. Meyer

407-411 **Reciprocal Translocation of Carbohydrates Between Host and Fungus in Bahiagrass Infected with *Myriogenospora atramentosa*** ..... K. T. Smith, C. W. Bacon, and E. S. Luttrell

446-449 **Polygalacturonase Inhibition in Rind of Valencia Orange Infected with *Diplodia natalensis*** ..... C. R. Barmore and T. K. Nguyen

458-462 **Lectins: A Possible Basis for Specific Recognition in the Interaction of *Trichoderma* and *Sclerotium rolfsii*** ..... R. Barak, Y. Elad, D. Mirelman, and I. Chet

467-471 **The Effect of pH and Some Selected Chemicals on the Temperature-Reversible Aggregation of Carnation Ringspot Virus** ..... J. H. Tremaine and W. P. Ronald

DISEASE DETECTION AND LOSSES

429-432 **The Impact of Ozone on Peanut Exposed in the Laboratory and Field** ..... J. Ensing, G. Hofstra, and R. C. Roy

DISEASE CONTROL AND PEST MANAGEMENT

381-385 **Forecasting the Seasonal Maturation of Ascospores of *Venturia inaequalis*** ..... W. E. MacHardy and D. M. Gadoury

403-406 **Effect of Soil Structure on Penetration by Metham-Sodium and of Temperature on Concentrations Required to Kill Soilborne Pathogens** ..... Y. Ben-Yephet and Z. R. Frank

ETIOLOGY

395-398 **Spring Beauty Latent Virus: A New Member of the Bromovirus Group** ..... R. A. Valverde

423-428 **Euonymus Chlorotic Ringspot Disease Caused by Tomato Ringspot Virus** ..... C. E. Puffinberger and M. K. Corbett

438-445 **Association of an Unusual Strain of *Xanthomonas campestris* with Apple** ..... J. L. Maas, M. M. Finney E. L. Civerolo, and M. Sasser

GENETICS

449-453 **Virulence Changes in *Uromyces appendiculatus* After Five Asexual Generations on a Partially Resistant Cultivar of *Phaseolus vulgaris*** ..... H. M. Alexander, J. V. Groth, and A. P. Roelfs

TECHNIQUES

453-457 **Composition of Northern Cereal Mosaic Virus and its Detection by Enzyme-Linked Immunosorbent Assay with Anti-Nucleocapsid Serum** ..... Y. Shirako and Y. Ehara

492-495 **Rapid Sample Analysis with a Simplified ELISA** ..... L. W. Stobbs and D. Barker

ECOLOGY AND EPIDEMIOLOGY

399-402 **Root-Colonizing Insects Recovered from Douglas-Fir in Various Stages of Decline Due to Black-Stain Root Disease** ..... J. J. Witcosky and E. M. Hansen

412-418 **Synergistic Interactions Between *Verticillium dahliae* and *Pratylenchus penetrans* in Potato Early Dying Disease** ..... R. C. Rowe, R. M. Riedel, and M. J. Martin

419-422 **Differential Interactions of *Pratylenchus crenatus, P. penetrans,* and *P. scribneri* with *Verticillium dahliae* in Potato Early Dying Disease** ..... R. M. Riedel, R. C. Rowe, and M. J. Martin

433-437 **Factors Affecting Myceliogenic Germination of Sclerotia of *Sclerotinia sclerotiorum*** ..... H. C. Huang

SPECIAL TOPICS

472-477 **Interaction of Soil Moisture Stress and Ambient Ozone on Growth and Yields of Soybeans** ..... H. E. Heggestad, T. J. Gish, E. H. Lee, J. H. Bennett, and L. W. Douglass

CYTOLOGY AND HISTOLOGY

482-488 **Mechanisms of Seed Contamination by *Verticillium albo-atrum* in Alfalfa** ..... H. C. Huang, M. R. Hanna, and E. G. Kokko

489-492 **Histopathology of Mixed Infections by *Colletotrichum truncatum* and *Phomopsis* spp. or *Cercospora sojina* in Soybean Seeds** ..... I. K. Kunwar, T. Singh, and J. B. Sinclair

ABSTRACTS

497-504 **Abstracts of papers presented at the 1985 meeting of the Southern Division**

No. 5—May

RESISTANCE

515-519 **Growth of Homologous and Heterologous Phytopathogenic Bacteria in Cotton Lines Susceptible, Resistant, or Immune to Blight** ..... M. B. Bayles and W. M. Johnson

542-546 **Glyceollin Accumulation in Soybean Lines Tolerant to *Phytophthora megasperma* f. sp. *glycinea*** ..... A. F. Olah, A. F. Schmitthenner, and A. K. Walker

603-606 **Receptivity, Incubation Period, and Lesion Size as Criteria for Screening Barley Genotypes for Resistance to *Pyrenophora teres*** ..... F. W. Nutter, Jr., and V. D. Pederson

POSTHARVEST PATHOLOGY AND MYCOTOXINS

553-556 **Effect of Pesticides on Zearalenone Production in Culture and in Corn Plants** ..... F. A. Draughon and D. C. Churchville

615-622 **Phytotoxic Responses of Citrus Fruit to Fumigation with Ethylene Dibromide** ..... L. G. Houck, J. F. Jenner, J. S. Tebbets, and P. L. Hartsell

DISEASE CONTROL AND PEST MANAGEMENT

538-542 **Influence of Winter Wheat Management Practices on the Severity of Powdery Mildew and Septoria Blotch in Pennsylvania** ..... S. C. Broscious, J. A. Frank, and J. R. Frederick

560-564 **Biological Control of Rhizoctonia Stem Canker and Black Scurf of Potato** ..... J. E. Beagle-Ristaino and G. C. Papavizas

588-592 **Efficacy of Various Fumigants in the Eradication of Decay Fungi Implanted in Douglas-fir Timbers** ..... W. E. Eslyn and T. L. Highley

TECHNIQUES

546-548 **A Growth Chamber Test for Measuring Phytophthora Root Rot Tolerance in Soybean Seedlings** ..... A. F. Olah and A. F. Schmitthenner

GENETICS

565-567 **Mutations Affecting Virulence in *Puccinia recondita*** ..... G. Statler

573-576 **Reduced Receptivity to Infection Associated with Wheat Gene *Lr2c* for Low Reaction to *Puccinia recondita*** ..... R. S. Modawi, L. E. Browder, and E. G. Heyne

ETIOLOGY

568-572 **Etiology of Radish Scab and Its Control Through Irrigation** ..... D. R. Levick, T. A. Evans, and M. L. Lacy

577-581 **Factors Affecting the Development of Head Smut Caused by *Sphacelotheca reiliana* on Corn** ..... C. A. Matyac and T. Kommedahl

ECOLOGY AND EPIDEMIOLOGY

505-509 **A Model Relating the Probability of Foliar Disease Incidence to the Population Frequencies of Bacterial Plant Pathogens** ..... D. I. Rouse, E. V. Nordheim, S. S. Hirano, and C. D. Upper

510-514 **The Role of Solar Radiation, Especially Ultraviolet, in the Mortality of Fungal Spores** ..... J. Rotem, B. Wooding, and D. E. Aylor

520-524 **Overwintering of *Pseudomonas syringae* pv. *glycinea* in the Field** ..... E. W. Park and S. M. Lim

524-528 **Indigenous Plasmids in *Xanthomonas campestris* pv. *citri*** ..... E. L. Civerolo

529-532 **Effect of Reducing Oxidant Injury and Early Blight on Fresh Weight and Tuber Density of Potato** ..... J. D. Holley, G. Hofstra, and R. Hall

533-538 **Dissemination of Virulent and Hypovirulent Forms of a Marked Strain of *Endothia parasitica* in Michigan** ..... S. W. Garrod, D. W. Fulbright, and A. V. Ravenscroft

557-559 **Estimated Distances for Infection of Wheat Roots by *Gaeumannomyces graminis* var. *tritici* in Soils Suppressive and Conducive to Take-All** ..... H. T. Wilkinson, J. R. Alldredge, and R. J. Cook

593-598 **Effects of Inoculum Concentration and Temperature on Anthracnose Severity in Alfalfa** ..... R. E. Welty and J. O. Rawlings

607-610 **Development of Crown Rust Epidemics in Genetically Diverse Oat Populations: Effect of Genotype Unit Area** ..... C. C. Mundt and J. A. Browning

611-615 **Splash Dispersal of *Phytophthora cactorum* from Infected Strawberry Fruit** ..... G. G. Grove, L. V. Madden, and M. A. Ellis

PHYSIOLOGY AND BIOCHEMISTRY

549-553 **Differentiation of Postharvest Soft Rotting Bacteria with Two-Dimensional Polyacrylamide Gel Electrophoresis** ..... H. E. Moline

581-587 **Comparative Membrane Characterization of *Xanthomonas campestris* pv. *cassavae* and *X. campestris* pv. *manihotis*** ..... R. M. D. B. dos Santos and J. C. Dianese

598-602 **Interaction of *Rhizoctonia* spp. with Peanut Lectin** ..... J. R. Leatherman and S. G. Pueppke

ABSTRACTS

623-630 **Abstracts of papers presented at the 1985 meeting of the Potomac Division**

No. 6—June

RESISTANCE

636-643 **Oligogenic Inheritance of Length Period in Six Slow Leaf-Rusting Wheat Cultivars** ..... T. S. Lee and G. Shaner

643-647 **Transgressive Segregation of Length of Latent Period in Crosses Between Slow Leaf-Rusting Wheat Cultivars** ..... T. S. Lee and G. Shaner

PHYSIOLOGY AND BIOCHEMISTRY

631-635 **Association of Double-Stranded Ribonucleic Acids with Lettuce Big Vein Disease** ..... T. E. Mirkov and J. A. Dodds

670-673 **Lime and the Control of Clubroot of Crucifers: Effects of pH, Calcium, Magnesium, and Their Interactions** ..... D. F. Myers and R. N. Campbell

674-678 **Host-Pathogen Interactions as Measured by Bioassay of Metabolites Produced by *Hypoxylon mammatum* with its Host *Populus tremuloides*** ..... D. H. Griffin and P. D. Manion

695-699 **Use of Race- and Cultivar-Specific Elicitors from Intercellular Fluids for Characterizing Races of *Cladosporium fulvum* and Resistant Tomato Cultivars** ..... V. J. Higgins and P. J. G. M. deWit

713-717 **Physiological and Pathological Characteristics of Virulent and Avirulent Strains of the Bacterium that Causes Pierce's Disease of Grapevine** ..... D. L. Hopkins

DISEASE CONTROL AND PEST MANAGEMENT

665-670 **Factors Related to Control of Clubroot of Crucifers in the Salinas Valley of California** ..... R. N. Campbell, A. S. Greathead, D. F. Myers, and G. J. de Boer

TECHNIQUES

661-664 **Properties of Soilborne Wheat Mosaic Virus Isolates in Nebraska** ..... Y. H. Hsu and M. K. Brakke

686-690 **Tan Spot of Winter Wheat: Procedures to Determine Host Response** ..... P. J. Raymond, W. W. Bockus, and B. L. Norman

722-728 **Identification of Xanthomonads and Grouping of Strains of *Xanthomonas campestris* pv. *campestris* with Monoclonal Antibodies** ..... A. M. Alvarez, A. A. Benedict, and C. Y. Mizumoto

SPECIAL TOPICS

679-682 **Influence of Mycorrhizae on the Growth of Loblolly Pine Seedlings Exposed to Ozone and Sulfur Dioxide** ..... M. J. Mahoney, B. I. Chevone, J. M. Skelly, and L. D. Moore

CYTOLOGY AND HISTOLOGY

704-708 **Penetration and Infection of Soybean Leaf Tissues by *Colletotrichum truncatum* and *Glomerella glycines*** ..... J. B. Manandhar, I. K. Kunwar, T. Singh, G. L. Hartman, and J. B. Sinclair

733-741 **Fate of *Xanthomonas campestris* Infiltrated into Soybean Leaves: An Ultrastructural Study** ..... S. B. Jones and W. F. Fett

ECOLOGY AND EPIDEMIOLOGY

648-653 **Influence of Soil Water Matric Potential on the Development of Phytophthora Root and Crown Rots of Mahaleb Cherry** ..... W. F. Wilcox and S. M. Mircetich

654-661 **Single and Combined Effects of the Lesion Nematode and *Colletotrichum graminicola* on Growth and Anthracnose Leaf Blight of Corn** ..... R. L. Nicholson, G. B. Bergeson, F. P. DeGennaro, and D. M. Viveiros

683-685 **Nature of Suppression of *Phytophthora capsici* in a Hawaiian Soil** ..... W. H. Ko and K. A. Nishijima

700-703 **Influence of Temperature and Wetness Duration on Sporulation of *Phytophthora cactorum* on Infected Strawberry Fruit** ..... G. G. Grove, L. V. Madden, and M. A. Ellis

729-732 **Survival and Proliferation of Propagules of *Trichoderma* spp. and *Gliocladium virens* in Soil and in Plant Rhizospheres** ..... J. E. Beagle-Ristaino and G. C. Papavizas

VECTOR RELATIONS

709-712 **Acquisition and Transmission of Blueberry Shoestring Virus by Its Aphid Vector *Illinoia pepperi*** ..... K. M. Morimoto, D. C. Ramsdell, J. M. Gillett, and W. G. Chaney

GENETICS

690-694 **A New Allele at the Rps_3 Locus for Resistance to *Phytophthora megasperma* f. sp. *glycinea* in Soybean** ..... L. D. Ploper, K. L. Athow, and F. A. Laviolette

717-721 **Quantitatively Inherited Reactions of Alfalfa to *Peronospora trifoliorum*** ..... D. Z. Skinner and D. L. Stuteville

741-747 **Genetics of Certain Morphological Characteristics in *Gibberella baccata*** ..... E. B. Lawrence, P. E. Nelson, and T. A. Toussoun

748 **Erratum**

No. 7—July

LETTER TO THE EDITOR

749-750 **Estimated Relation Between Numbers of Urediniospores of *Puccinia graminis* f. sp. *tritici* and Rates of Occurrence of Virulence** ..... J. F. Schafer and A. P. Roelfs

ECOLOGY AND EPIDEMIOLOGY

786-791 **Empirical Estimation of the Asymptotes of Disease Progress Curves and the Use of the Richards Generalized Rate Parameters for Describing Disease Progress** ..... E. W. Park and S. M. Lim

792-797 **A General Model for Disease Progress with Functions for Variable Latency and Lesion Expansion on Growing Host Plants** ..... R. D. Berger and J. W. Jones

808-810 **Influence of Interruptions of Dew Period on Numbers of Lesions Produced on Onion by *Botrytis squamosa*** ..... S. C. Alderman, M. L. Lacy, and K. L. Everts

828-832 **Effects of Temperature, Moisture, and Cucumber Cultivar Resistance on Lesion Size Increase and Conidial Production by *Colletotrichum lagenarium*** ..... D. C. Thompson and S. F. Jenkins

833-839 **Characterization and Pathogenicity of *Rhizoctonia* Species from a Reduced-Tillage Experiment Multicropped to Rye and Soybean in Florida** ..... R. C. Ploetz, D. J. Mitchell, and R. N. Gallaher

RESISTANCE

751-757 **Role of *Vigna* species in the Appearance of Pathogenic Variants of Cucumber Mosaic Virus** ..... D. K. Lakshman, D. Gonsalves, and R. W. Fulton

771-773 **Mutations to Virulence and Avirulence in *Melampsora lini*** ..... G. D. Statler

DISEASE CONTROL AND PEST MANAGEMENT

763-767 **Delayed and Enhanced Degradation of Benomyl and Carbendazim in Disinfested and Fungicide-Treated Soils** ..... O. Yarden, J. Katan, N. Aharonson, and Y. Ben-Yephet

812-817 **Effect of Mycelial Preparations of *Trichoderma* and *Gliocladium* on Populations of *Rhizoctonia solani* and the Incidence of Damping-Off** ..... J. A. Lewis and G. C. Papavizas

865-869 **Translocation of Metalaxyl in Soybean Plants and Control of Stem Rot Caused by *Phytophthora megasperma* f. sp. *glycinea*** ..... J. P. Gupta, D. C. Erwin, J. W. Eckert, and A. I. Zaki

DISEASE DETECTION AND LOSSES

840-844 **Infrared Thermometry for Determination of Root Rot Severity in Beans** ..... J. C. Tu and C. S. Tan

ETIOLOGY

817-820 **Stress and Stimulus Modifications of Disease Severity in the Wart Disease of Potato** ..... M. C. Hampson and J. W. Coombes

821-827 **Identification and Comparative Pathogenicity of *Pythium* species from Wheat Roots and Wheat-Field Soils in the Pacific Northwest** ..... C. Chamswarng and R. J. Cook

845-847 **Interactive Effects of Freezing and Common Root Rot Fungi on Winter Wheat** ..... J. A. Fernandez, D. S. Wofford, and J. L. Horton

870-874 **A Satellitelike Virus Particle Associated with Maize White Line Mosaic Virus** ..... R. E. Gingery and R. Louie

GENETICS

758-762 **Genetic Analyses of Two Large-Lesion Isolates of Cucumber Mosaic Virus** ..... D. K. Lakshman and D. Gonsalves

767-771 **Indigenous Plasmids in *Pseudomonas solanacearum*** ..... V. M. Morales and L. Sequeira

VECTOR RELATIONS

852-855 **Serological Detection and Evidence for Multiplication of Maize Mosaic Virus in the Planthopper, *Peregrinus maidis*** ..... B. W. Falk and J. H. Tsai

TECHNIQUES

774-777 **Encapsulation of Potential Biocontrol Agents in an Alginate-Clay Matrix** ..... D. R. Fravel, J. J. Marois, R. D. Lumsden, and W. J. Connick, Jr.

778-783 **Comparison of Mouse Monoclonal Antibodies and Polyclonal Antibodies of Chicken Egg Yolk and Rabbit for Assay of Carnation Etched Ring Virus** ..... H. T. Hsu and R. H. Lawson

783-785 **A Technique for Determining the Deposition of Heavy Metals in Pesticides** ..... J. W. Travis, T. B. Sutton, and W. A. Skroch

797-800 **Relationships Between Seedborne Soybean Fungi and Altered Photoperiod** ..... J. R. Wilcox, T. S. Abney, and E. M. Frankenberger

801-807 **A Spore and Pollen Trap for Use on Aerial Remotely Piloted Vehicles** ..... T. R. Gottwald and W. L. Tedders

848-851 **Production of Monoclonal Antibodies Against *Spiroplasma citri*** ..... C. P. Lin and T. A. Chen

CYTOLOGY AND HISTOLOGY

856-859 **Negative Geotropism in *Venturia inaequalis*** ..... D. M. Gadoury and W. E. MacHardy

859-865 **Infection of Alfalfa Pollen by *Verticillium albo-atrum*** ..... H. C. Huang and E. G. Kokko

No. 8—August

OBITUARY

875 **Dennis Heeley Hall, 1922–1984** ..... R. N. Campbell and R. K. Webster

876 **A. H. Gold, 1911–1984** ..... S. Wilhelm and D. E. Schlegel

POSTHARVEST PATHOLOGY AND MYCOTOXINS

877-882 **Development, Persistence, Survival, and Strategies for Control of Thiabendazole-Resistant Strains of *Penicillium expansum* on Pome Fruits** ..... D. Prusky, M. Bazak, and R. Ben-Arie

TECHNIQUES

882-889 **Group Testing for Estimating Infection Rates and Probabilities of Disease Transmission** ..... W. H. Swallow

914-919 **Production and Use of Antibodies from Hen Eggs for the SGV Isolate of Barley Yellow Dwarf Virus** ..... J. S. Hu, W. F. Rochow, and R. R. Dietert

930-935 **A Modification of Gregory's Model for Describing Plant Disease Gradients** ..... C. C. Mundt and K. J. Leonard

VECTOR RELATIONS

890-893 **Specificity of the Helper-Component-Mediated Aphid Transmission of Three Potyviruses Infecting Muskmelon** ..... H. Lecoq and M. Pitrat

ECOLOGY AND EPIDEMIOLOGY

920-924 **Wound-Related Modifications of Penetration, Development, and Root Rot by *Fusarium roseum* in Forage Legumes** ..... J. C. Stutz, K. T. Leath, and W. A. Kendall

957-961 **Frequency Distribution Analyses of Lettuce Drop Caused by *Sclerotinia minor*** ..... J. J. Marois and P. B. Adams

GENETICS

907-913 **Isozyme and Virulence Variation in Asexually Reproducing Populations of *Puccinia graminis* and *P. recondita* on Wheat** ..... J. J. Burdon and A. P. Roelfs

CYTOLOGY AND HISTOLOGY

924-929 **Histological Development of *Sphacelotheca reiliana* on *Zea mays*** ..... C. A. Matyac

950-956 **Host Relations of *Myriogenospora atramentosa* and *Balansia epichloë* (Clavicipitaceae)** ..... D. M. Rykard, C. W. Bacon, and E. S. Luttrell

ETIOLOGY

894-899 **Rice Grassy Stunt Virus: A Planthopper-Borne Circular Filament** ..... H. Hibino, T. Usugi, T. Omura, T. Tsuchizaki, K. Shohara, and M. Iwasaki

899-906 **Clover Yellow Vein Virus in *Limonium sinuatum*** ..... R. H. Lawson, M. D. Brannigan, and J. Foster

946-949 **A Unique, Infectious RNA Associated with Citron Showing Symptoms Typical of Citrus Exocortis Disease** ..... A. Schlemmer, C. N. Roistacher, and J. S. Semancik

DISEASE DETECTION AND LOSSES

936-939 **Monitoring Cereal Rust Development With A Spectral Radiometer** ..... E. L. Sharp, C. R. Perry, A. L. Scharen, G. O. Boatwright, D. C. Sands, L. F. Lautenschlager, C. M. Yahyaoui, and F. W. Ravet

PHYSIOLOGY AND BIOCHEMISTRY

940-945 **Detection of Cutinases and Pectic Enzymes During Infection of Tomato by *Pseudomonas syringae* pv. *tomato*** ..... Y. Bashan, Y. Okon, and Y. Henis

ABSTRACTS

962-968 **Abstracts of papers presented at the 1985 meeting of the North Central Division**

No. 9—September

OBITUARY

969 **Francis Alexander Laviolette, 1919-1984** ..... K. L. Athow and T. S. Abney

PHYSIOLOGY AND BIOCHEMISTRY

989-991 **The Effect of Iron and Boron Amendments on Infection of Bean by *Fusarium solani*** ..... D. Guerra and A. J. Anderson

992-995 **Responses of Bean to Root Colonization With *Pseudomonas putida* in a Hydroponic System** ..... A. J. Anderson and D. Guerra

1073-1076 **Extracellular Proteins Associated with Induction of Differentiation in Bean Rust Uredospore Germlings** ..... L. Epstein, L. Laccetti, R. C. Staples, H. C. Hoch, and W. A. Hoose

ETIOLOGY

977-981 **Pathogenicity and Relative Virulence of *Phytophthora* spp. from Walnut and Other Plants to Rootstocks of English Walnut Trees** ..... M. E. Matheron and S. M. Mircetich

DISEASE CONTROL AND PEST MANAGEMENT

1042-1046 **Effects of Phosphorous Acid and Fosetyl-Al on the Life Cycle of *Phytophthora cinnamomi* and *P. citricola*** ..... M. D. Coffey and M. C. Joseph

1064-1068 **Further Evidence for the Direct Mode of Action of Fosetyl-Al and Phosphorous Acid** ..... M. E. Fenn and M. D. Coffey

RESISTANCE

1032-1039 **Evaluation for Bacterial Blight Resistance in Beans** ..... M. Zapata, G. F. Freytag, and R. E. Wilkinson

GENETICS

1068-1073 **The Effect of Sexual and Asexual Reproduction on the Isozyme Structure of Populations of *Puccinia graminis*** ..... J. J. Burdon and A. P. Roelfs

1077-1078 **Inheritance of Resistance in Sorghum to Three Pathotypes of *Peronosclerospora sorghi*** ..... J. Craig and K. F. Schertz

TECHNIQUES

1060-1063 **A Detached-Leaf Bioassay for *Xanthomonas campestris* pv. *pruni*** ..... P. S. Randhawa and E. L. Civerolo

ECOLOGY AND EPIDEMIOLOGY

970-972 **Seasonal Variation in Susceptibility of *Juglans hindsii* and Paradox Rootstocks of English Walnut Trees to *Phytophthora citricola*** ..... M. E. Matheron and S. M. Mircetich

973-976 **Influence of Flooding Duration on Development of Phytophthora Root and Crown Rot of *Juglans hindsii* and Paradox Walnut Rootstocks** ..... M. E. Matheron and S. M. Mircetich

982-988 **Field Assessment of Fitness of Isolates of *Phytophthora infestans*** ..... P. W. Tooley and W. E. Fry

996-1003 **Influence of Simulated Acidic Rain on *Phytophthora cinnamomi* and Phytophthora Root Rot of Blue Lupine** ..... S. R. Shafer, R. I. Bruck, and A. S. Heagle

1004-1009 **Epidemiology of Phytophthora Root Rot of Fraser Fir: Root Colonization and Inoculum Production** ..... K. M. Reynolds, D. M. Benson, and R. I. Bruck

1010-1014 **Epidemiology of Phytophthora Root Rot of Fraser fir: Estimates of Rhizosphere Width and Inoculum Efficiency** ..... K. M. Reynolds, D. M. Benson, and R. I. Bruck

1014-1019 **Isolation and Characterization of a Metalaxyl-Insensitive Isolate of *Phytophthora megasperma* f. sp. *medicaginis*** ..... J. P. Stack and R. L. Millar

1020-1025 **Competitive Colonization of Organic Matter in Soil by *Phytophthora megasperma* f. sp. *medicaginis*** ..... J. P. Stack and R. L. Millar

1025-1031 **Relative Survival Potential of Propagules of *Phytophthora megasperma* f. sp. *medicaginis*** ..... J. P. Stack and R. L. Millar

1039-1041 **Influence of Root Rot on Winter Survival and Yield of Winter Barley and Winter Wheat** ..... J. A. Frank

1047-1052 **Influence of Trace Amounts of Cations and Siderophore-Producing Pseudomonads on Chlamydospore Germination of *Fusarium oxysporum*** ..... Y. Elad and R. Baker

1053-1059 **The Role of Competition for Iron and Carbon in Suppression of Chlamydospore Germination of *Fusarium* spp. by *Pseudomonas* spp.** ..... Y. Elad and R. Baker

1078 **Erratum**

No. 10—October

LETTER TO THE EDITOR

1079 **Virulence Structure in *Puccinia graminis* f. sp. *tritici*: A Reply** ..... J. E. Vanderplank

PHYSIOLOGY AND BIOCHEMISTRY

1084-1091 **Nutritional Diseases of Pistachio Trees: Potassium and Phosphorus Deficiencies and Chloride and Boron Toxicities** ..... L. J. Ashworth, Jr., S. A. Gaona, and E. Surber

1091-1093 **Verticillium Wilt of Pistachio: The Influence of Potassium Nutrition on Susceptibility to Infection by *Verticillium dahliae*** ..... L. J. Ashworth, Jr., S. A. Gaona, and E. Surber

1102-1104 **The Possible Role of Peroxidase Isoenzymes in the Infection of English Oak by *Loranthus europaeus*** ..... R. Ebermann and E. Lickl

1125-1127 **Reaction of Antiserum Against SDS-Dissociated Rice Dwarf Virus and a Polypeptide of Rice Gall Dwarf Virus** ..... M. Matsuoka, Y. Minobe, and T. Omura

DISEASE CONTROL AND PEST MANAGEMENT

1098-1101 **Reduced Sensitivity to Sterol-Inhibiting Fungicides in Field Isolates of *Venturia inaequalis*** ..... V. F. Stanis and A. L. Jones

RESISTANCE

1108-1112 **Resistance of Barley to *Puccinia graminis* f. sp. *tritici* and *Puccinia graminis* f. sp. *secalis*** ..... B. J. Steffenson, R. D. Wilcoxson, and A. P. Roelfs

1121-1125 **High-Temperature, Adult-Plant Resistance to Stripe Rust of Wheat** ..... A. Qayoum and R. F. Line

1127-1129 **A Modified Technique for Inducing Systemic Resistance to Blue Mold and Increasing Growth in Tobacco** ..... S. Tuzun and J. Kuć

DISEASE DETECTION AND LOSSES

1104-1108 **Branch Dieback and Cone and Seed Infection Caused by *Fusarium moniliforme* var. *subglutinans* in a Loblolly Pine Seed Orchard in South Carolina** ..... J. Barrows-Broaddus and L. D. Dwinell

TECHNIQUES

1130-1131 **In Vitro Inoculation of Western White Pine Tissue Culture Propagules with Vegetative Hyphae of *Cronartium ribicola*** ..... A. M. Diner and R. L. Mott

ETIOLOGY

1094-1098 **Cynodon Chlorotic Streak Virus, a Previously Undescribed Plant Rhabdovirus Infecting Bermuda Grass and Maize in the Mediterranean Area** ..... B. E. L. Lockhart, N. Khaless, M. El Maataoui, and R. Lastra

1146-1151 **Fungal Wilt and Root Rot Diseases of Chickpea in Southern Spain** .... A. Trapero-Casas and R. M. Jiménez-Díaz

POSTHARVEST PATHOLOGY AND MYCOTOXINS

1137-1140 **Effect of Physical Damage to Corn Kernels on the Development of *Penicillium* species and *Aspergillus glaucus* in Storage** ..... J. Tuite, C. Koh-Knox, R. Stroshine, F. A. Cantone, and L. F. Bauman

ECOLOGY AND EPIDEMIOLOGY

1080-1084 **Suppression of Damping-Off Caused by *Rhizoctonia* Species by a Nonpathogenic Isolate of *R. solani*** ..... M. Ichielevich-Auster, B. Sneh, Y. Koltin, and I. Barash

1112-1120 **Fungal Infection of Feeder Rootlets of Alfalfa** ..... J. G. Hancock

1132-1136 **Factors Influencing Virus Titer in Maize Dwarf Mosaic Virus-Infected Sorghum** ... S. G. Jensen, M. K. Palomar, E. M. Ball, and R. Samson

1141-1145 **Effect of Host Genotype Unit Area on Epidemic Development of Crown Rust Following Focal and General Inoculations of Mixtures of Immune and Susceptible Oat Plants** .... C. C. Mundt and K. J. Leonard

1151-1156 **Epidemiology and Yield Losses Associated with Alternaria Blight of Sunflower** ..... M. L. Carson

1156-1159 **Effects of Tillage and Cropping System on Incidence and Severity of Southern Stem Canker of Soybean** ..... C. S. Rothrock, T. W. Hobbs, and D. V. Phillips

1160-1167 **Temperature and Osmotic Potential Effects on *Phialophora graminicola* and Other Fungi Associated with Patch Diseases of *Poa pratensis*** ..... R. W. Smiley, M. C. Fowler, and R. T. Kane

CYTOLOGY AND HISTOLOGY

1167-1172 **Assembly, Morphology, and Accumulation of a Hawaiian Isolate of Maize Mosaic Virus in Maize** ..... L. L. McDaniel, E.-D. Ammar, and D. T. Gordon

ABSTRACTS

1173-1180 **Abstracts of papers presented at the 1984 meeting of the Caribbean Division**

No. 11—November

OBITUARY

1181 **Matthew Bowie Moore, 1905–1985** ..... E. E. Banttari and R. J. Zeyen

VECTOR RELATIONS

1188-1191 **Association of the Asparagus Miner with Stem Rot Caused in Asparagus by *Fusarium* species** ..... R. L. Gilbertson, W. J. Manning, and D. N. Ferro

ECOLOGY AND EPIDEMIOLOGY

1182-1187 **Influence of Antagonists and Controlled Matric Potential on the Survival of *Pseudomonas solanacearum* in Four North Carolina Soils** ..... W. C. Nesmith and S. F. Jenkins, Jr.

1201-1207 **Mycoparasitic Fungi Associated with Potential Stalk Rot Pathogens of Corn** ..... N. G. Vakili

1212-1216 **Influence of Inoculum From Buried and Surface Corn Residues on the Incidence of Corn Anthracnose** ..... P. E. Lipps

1217-1222 **Aphid Vector Population Dynamics and Movement Relative to Field Transmission of Blueberry Shoestring Virus.** ..... K. M. Morimoto and D. C. Ramsdell

1236-1241 **Influence of Soil Water Potential on Performance of Soybean Seeds Infected by *Phomopsis* sp.** ..... M. L. Gleason and R. S. Ferriss

1232-1235 **Escape of Urediniospores of *Uromyces phaseoli* from a Bean Field Canopy** ..... D. E. Aylor and F. J. Ferrandino

1245-1251 **Model for Predicting Severity of Septoria tritici Blotch on Winter Wheat** ..... S. M. Coakley, L. R. McDaniel, and G. Shaner

CYTOLOGY AND HISTOLOGY

1191-1195 **Suberized Boundary Zones and the Chronology of Wound Response in Tree Bark** ..... A. R. Biggs

DISEASE DETECTION AND LOSSES

1252-1257 **A Sampling Procedure to Detect Grapevine Downy Mildew** ..... R. C. Seem, P. A. Magarey, P. I. McCloud, and M. F. Wachtel

TECHNIQUES

1208-1212 **Southern Bean Mosaic Virus Monoclonal Antibodies: Reactivity with Virus Strains and with the Virus Antigen in Different Conformations** ..... J. H. Tremaine, W. P. Ronald, and D. J. MacKenzie

1226-1231 **Direct-Count Techniques for Enumerating *Clavibacter xyli* subsp. *xyli* Which Causes Ratoon Stunting Disease of Sugarcane** ..... M. J. Davis

1242-1245 **Bioassay for Quantification of *Pythium aphanidermatum* in Soil** ..... M. E. Stanghellini and W. C. Kronland

ETIOLOGY

1258-1262 **Properties of Bermuda Grass Etched-Line Virus, a New Leafhopper-Transmitted Virus Related to Maize Rayado Fino and Oat Blue Dwarf Viruses** ..... B. E. L. Lockhart, N. Khaless, A. M. Lennon, and M. El Maatauoi

RESISTANCE

1195-1200 **Inheritance of Resistance to *Bipolaris maydis* Race O in Crosses Derived from Nine Resistant Inbred Lines of Maize** ..... D. C. Burnette and D. G. White

1222-1225 **Nontransmissibility to Regenerants from Protected Tobacco Explants of Induced Resistance to *Peronospora hyoscyami*** ..... J. A. Lucas, T. E. Dolan, and M. D. Coffey

DISEASE CONTROL AND PEST MANAGEMENT

1263-1269 **Biocontrol Efficacy of *Cercospora rodmanii* on Waterhyacinth** ..... R. Charudattan, S. B. Linda, M. Kluepfel, and Y. A. Osman

PHYSIOLOGY AND BIOCHEMISTRY

1270-1274 **Hypersensitivity of Suspension-Cultured Tobacco Cells to Pathogenic Bacteria** ..... M. M. Atkinson, J.-s. Huang, and J. A. Knopp

ABSTRACTS

1275 **Abstracts of presentations at the 1985 annual meeting**

No. 12—December

ECOLOGY AND EPIDEMIOLOGY

1387-1392 **Isolation and Characterization of a Metalaxyl-Insensitive Isolate of *Phytophthora megasperma* f. sp. *medicaginis*** ..... J. P. Stack and R. L. Millar

1393-1398 **Competitive Colonization of Organic Matter in Soil by *Phytophthora megasperma* f. sp. *medicaginis*** ..... J. P. Stack and R. L. Millar

1398-1404 **Relative Survival Potential of Propagules of *Phytophthora megasperma* f. sp. *medicaginis*** ..... J. P. Stack and R. L. Millar

1422-1427 **Influence of Cultivar Resistance, Initial Disease, Environment, and Fungicide Concentration and Timing on Anthracnose Development and Yield Loss in Pickling Cucumbers** ..... D. C. Thompson and S. F. Jenkins

1428-1431 **Effect of Temperature, pH, Light, and Desiccation on Teliospore Germination of *Tilletia indica*** ..... J. L. Smilanick, J. A. Hoffmann, and M. H. Royer

1435-1438 **Effects of Soil Texture and Matric Potential on Sporangium Production by *Phytophthora parasitica* var. *nicotianae*** ..... J. R. Sidebottom and H. D. Shew

1439-1443 **Effect of Soil Type and Soil Matric Potential on Infection of Tobacco by *Phytophthora parasitica* var. *nicotianae*** ..... J. R. Sidebottom and H. D. Shew

1447-1451 **Population Dynamics of Soilborne Fungi in a Field Multicropped to Rye and Soybeans Under Reduced Tillage in Florida** ..... R. C. Ploetz, D. J. Mitchell, and R. N. Gallaher

1451-1455 **Effects of Flooding Duration on the Development of Phytophthora Root and Crown Rots of Cherry** ..... W. F. Wilcox and S. M. Mircetich

1456-1462 **Global Insights into Virulence Frequencies of *Mycosphaerella graminicola*** ..... Z. Eyal, A. L. Scharen, M. D. Huffman, and J. M. Prescott

1463-1468 **The Distribution and Frequency of Virulence Genes in Geographically Separated Populations of *Leptosphaeria nodorum*** ..... A. L. Scharen, Z. Eyal, M. D. Huffman, and J. M. Prescott

DISEASE CONTROL AND PEST MANAGEMENT

1405-1413 **Further Evidence for Two Cytoplasmic Hypovirulence Agents in a Strain of *Endothia parasitica* from Western Michigan** ..... J. E. Elliston

PHYSIOLOGY AND BIOCHEMISTRY

1414-1418 **Relationship of Bacterial Cell Surface Hydrophobicity and Charge to Pathogenicity, Physiologic Race, and Immobilization in Attached Soybean Leaves** ..... W. F. Fett

1419-1421 **Occurrence of Juglone in Various Tissues of Pecan and Related Species** ..... A. Borazjani, C. H. Graves, Jr., and P. A. Hedin

RESISTANCE

1432-1434 **Clones of *Solanum berthaultii* Resistant to Potato Spindle Tuber Viroid** ..... R. P. Singh

1443-1447 **Maturation-Related Resistance of *Pinus radiata* to Western Gall Rust** ..... D. Zagory and W. J. Libby

1468 **Errata**

i **Tables of Contents for 1985**

I **Index for 1985**

Statement of Ownership, Management, and Circulation
